Cam Locks

For Letter Boxes, Office Furniture and much more...

RONIS-DOM CAM LOCKS can be specified for a range of different applications such as Office Furniture, Vending Machines, Cabinets and Letter Boxes. The **RONIS** and **DOM** brands have developed a strong product recognition within the industrial market during the past 70 years manufacturing products to suit both standard and also more specific hole dimensions and panel thicknesses.

The range of cam locks is also available as a stand-alone product or as a master keyed solution with a diverse range of cams to suit.

Latch Locks

Simple, Effective, Compatible...

Adapted for both wooden and metal office furniture, the **RONIS-DOM LATCH LOCK** range offers you a simple yet effective locking solution that can be used with a standard padlock.

RONIS has recently added the new 23700 lock to this range with integrated clutch function.

Multi Drawer Locks

Multi use, Multi purpose, Multiple applications...

When specifying for office furniture applications a multi point locking system is often required using a combination of round-ended cam and locking bar. The **RONIS-DOM** range of **MULTI-DRAWER LOCKS** is available in nickel and chrome finishes and can be adapted to your application using a screw fixing, nut fixing or original **RONIS** snap-in solution.

Select products in this range are used in combination with our anti-tilt **ULTRA-TRACK** system offering the perfect solution for your multi-drawer cabinets applications.

Drawer Locks

Versatile, Practical, User friendly...

The selection of **DRAWER LOCKS** from **RONIS-DOM** offers a design solution for wooden and metal applications. The inner lock mechanisms are contained within a Mazak housing, which is hidden from view inside the cabinet.

Whether for a single or multi point locking system, this varied range offers adaptable, user friendly products such as the **RONIS** Espagnolet system supplied complete with accessory kit.

Push Locks

Push, Lock, Release in 3 easy steps...

The **RONIS-DOM** range of **PUSH LOCKS** has been designed for self locking applications such as sliding doors.

This easy to install product range is suitable for both wooden and metal furniture and is available for use with a master key system.

Griffe

T&L, Oberflächenbündige Montage und PVC-U...

RONIS-DOM offers a range of T&L shaped **HANDLES**, available both with a locking and non-locking function. Additional to this standard range we can also offer a variety of **FLUSH FITTING** products made from a combination of Masak and plastic.

A range of handles for double glazing applications is also available either with a push button function or as a lockable version.

RONIS is pleased to announce the launch of its new "**CLIEPO**" flush fitting handle. Its innovative design incorporates a clip locking function and is also available as a master keyed solution. The "**CLIEPO**" handle can be finished in a range of modern colors with individual customer logo on request.

High Security Locks

Quality, High Security Solutions...

Using our extensive knowledge in the field of master keying, we can offer a large range of suited **DOM** pin tumbler cam locks.

Whether you are building a master-key system or as part of a complex multi-suited **HIGH SECURITY** system, **RONIS-DOM** can offer the right solution for every application.

Customised Locks

Tailor-made Solutions for every application...

Here at **RONIS-DOM** it is our mission to offer a tailor made solution to suit every requirement.

In order to achieve this goal our research and development departments are continually developing new products in line with customer demands and changes in the market.

For individual requests please contact a member of the sales team.

Modular V

Flexible Technology...

RONIS-DOM MODULAR technology has been developed to offer a unique, efficient and cost effective solution to industrial lock barrel replacement.

The MODULAR V removal barrel concept is available for a range of products such as a selection of **DOM** cam locks and multi drawer locks.

With this concept in mind **RONIS** has adapted its range of **COIN OPERATED LOCKS** and **INDUSTRIAL PRODUCTS** to include a selection of removable barrels.
